

Rishav Aeron

Jaipur, Rajasthan, India – 302020 | +91 9929873530 | rishavaeron80235@gmail.com

PROFESSIONAL SUMMARY

Certified MERN Stack Developer and highly motivated **Frontend Specialist** proficient in building high-performance, responsive web applications using **React.js, React Hooks, and RESTful APIs**. Possesses practical experience with complementary frameworks (Vue.js, Redux) and a strong foundation in **Component-Based Architecture**. Actively seeking an **entry-level or junior developer role** to immediately contribute technical skills and passion for creating seamless digital experiences.

TECHNICAL SKILLS

Category	Skills
Core Frontend	HTML5, CSS3, JavaScript (ES6+)
React Ecosystem	React.js, React Hooks, Component-Based Architecture, Redux (State Management)
Backend & API	RESTful API Integration, Asynchronous Data Handling, Firebase Integration
Frameworks/Tools	Bootstrap Framework, Vue.js, Git & GitHub, Responsive Web Design

KEY PROJECT

ShopEasy - E-Commerce Web Application

Tech Stack: React.js, Bootstrap, REST APIs

- Designed and developed a complete, modern e-commerce platform with a clean, responsive UI, resulting in an optimal experience across both mobile and desktop devices.
- Implemented **real-time shopping cart functionality** that dynamically tracks and updates item quantities and total costs, enhancing user checkout flow.
- Successfully **integrated external REST APIs** to fetch and display product details, ensuring data synchronisation and application scalability.
- Structured, intuitive, high-scannability navigation (Home, Products, Checkout) to **reduce user friction** and improve site engagement.

EXPERIENCE

Frontend Web Developer Intern (Remote)

Unified Mentor, Gurugram, Haryana | August 2025 – Present (Ongoing)

- Engaged in the full software development lifecycle for diverse web applications, consistently applying **Git** and version control best practices.
- Implemented complex state management logic (Redux) and data persistence solutions (Firebase), demonstrating the ability to handle structured and unstructured application data.
- Contributed to the development of two advanced platforms (appointment scheduler and gym management), practising rapid feature implementation and deployment.
- Completed initial projects, including a portfolio website and a weather app, using foundational skills (**HTML, CSS, JavaScript, React Hooks**), meeting all functional specifications.

EDUCATION & CERTIFICATION

Bachelor of Computer Applications

Nirwan University, Jaipur

Second Year (2024 – 2027)

MERN Stack Certification (8 Months)

WS Cube Tech Career School

June 2024 – February 2025
